

## **A-11. Listserv Manager**

September 30, 2009  
Louisville, KY

### **Listserv Manager Report Annual Report**

There have been no major problems occur with the listserv this year. Many email accounts were adjusted to reflect changes in accounts. Unfortunately, this is one of those case-by-case issues where we have to rely on the user to let us know of the change. It is an easy problem to fix and the user is able to have full access to the list in a matter of minutes.

The automatic features of the listserv server that continually check for lapsed accounts and unauthorized postings is working well and there are no errors to report with that.

Respectfully submitted,

Sara Brown, List Manager  
Terri Brown, Co-List Manager
