

KENTUCKY LIBRARY ASSOCIATION BOARD MEETING OCTOBER 3, 2008

SOUTHEASTERN LIBRARY ASSOCIATION (SELA) ANNUAL REPORT

SELA Committees have been working on several projects including updating the website, recruiting mentors, and preparing for the joint conference.

The SELA Mentoring Program is looking for both mentors and mentees. The mentoring program is a brand new service through SELA and is designed to assist the professional members along with library science students and those who work in different capacities in a library setting. As a mentor, you will be able to provide a mentee with your expertise as a library professional. As a mentee, you will be matched with someone who can guide you with your professional needs and also learn about the SELA organization.

Reach potential employees across the Southeast by posting your employment opportunities to the Jobs Page on the SELA Web site. The Jobs page may be found under the News & Events heading, or go directly to <http://sela.jsu.edu/news/jobs.htm> .

Conference information is posted on the SELA website including a call for proposals and link to the KLA website.

Lisa R. Rice
