

ST-3

KLA Member Services Committee

Report to the Board

September 28, 2011

Louisville, KY

The Member Services Committee has completed the 2011 Dues Review. The Blue Book specifies that an automatic 10% increase will apply to all salary levels above \$9,999 every three years unless revised by the Dues Review Subcommittee.

Data was collected about the member dues charged by library associations in surrounding states. This data was distributed to the members of the committee. Overall, KLA's dues levels are in line with or well below those of comparable neighbor states.

The committee members expressed concerns about increasing dues when salaries are not increasing, and increasing student dues in particular. However, the majority of the committee felt that the association should go ahead with the scheduled increase.

Respectfully submitted,

Betsy Hughes, Chair
Member Services Committee
